

# 2026 New varieties

## Antirrhinum Speedy Sonnet series

### Yellow Imp.'26

The earliness of Speedy Sonnet Yellow Imp.'26 has been standardized within the series, resulting in improved series uniformity

## Begonia Viking series

### Red on Green Imp.

Increasing branching and more flowering power

### Red on Bronze Imp.

The key improvements are upward-facing flowers and a deeper red coloration

### Red on Chocolate Imp.

Increasing branching and more flowering power

## Begonia Viking XL series

### Red on Green Imp.

Upward-facing flowers and eye catching bright red coloration

## Celosia Flamma series

### Pink

The additional color in Flamma series, soft pastel pink flower color and very well branching from all sides of the plant

## Delphinium Candle series

### Blue Shades Imp.

Maintain strong stems and good volume. It is less likely to get early bolting compared to Candle Blue Shades

### Lavender Shades Imp.

It shows better uniformity and develops volume more easily than Candle Lavender Shades. The second flush also comes up well, and the plants do not form rosette easily.

## Delphinium Planet series

### Deep Pink

The deeper pink color compared to Planet Light Pink, creates a striking contrast in cut flower arrangements

## Flowering Cabbage Osaka<sup>iq</sup> series

### Rosy Red

Green outer leaves and a bright rosy red colored center. Excellent color contrast with Osaka iQ White

## Flowering Kale Sapporo Fringed series

### Red, White

Having fine cuts in the leaves, like feathers, creating a new and unique appearance

## Pansy Majestic Giants II series

### Clear Scarlet

Long-awaited additional clear color to the series! Bright scarlet flower color especially in fall season

## Pansy Grandio series

### Blue & White Shades Imp.

More compact plant habit, slightly earlier and deeper flower color than Grandio Blue & White Shades

### True Blue Imp. '26

Earlier flowering than Grandio True Blue and market varieties with better plant habit and less stretching even under the hot condition

## Pansy Grandissimo series

### White

Slightly vigorous but less stretching plant habit and larger flower size than Grandissimo Popcorn. Pure white flower with stable yellow center

### Yellow w/Blotch Imp.

The additional color in the Grandissimo series, stable blotch size

### Blue Jeans

The additional color in the Grandissimo series, unique bluish blotch color with some color variation

### Rose w/Blotch Imp.

Compact plant habit, greater uniformity, enhanced bright flower color and a slightly later flowering than Grandissimo Rose with Blotch

## Viola Perfetto series

### Red

The additional color in the Perfetto series, slightly shades color

### True Blue

Additional color in Perfetto series, bright True Blue flower color !

## Stock Early Iron series

### Pink II

Easier to get plant height and higher flower density on spikes than Early Iron Pink

## Zinnia Profusion series

### Golden

The additional color in Profusion series, large flower size, excellent uniformity and fitting to series very well
